New Advanced Technology in Medicine by Bio Electron's Photons Special circuit

I, Nick Kostovic, for the first time in recorded history have eliminated magnetic from regular electromagnetic electricity. I also created the next six steps described below. I did this by developing a proprietary way of reversed current RC to create what is bio electricity. The device I created is called the Kostovic Bio Technological Energizer, K-BTE Medical Laser Device

First, my center has successfully developed special current circuit and canceled magnetic from electromagnetic.

Second, this device extracts bio electron photons from H₂O electric fluid by wire and wirelessly.

Third, while using the K-BTE device therapist has absolute control of speed/frequency of these released and enriched bio electron photons.

Fourth, bio electrons photons are converted into the strength of Micro or Nano amperes allowing the bio electricity to softly penetrate into the brain or any other physical organ with zero harm to the healthy cells.

Fifth, in the process of extracting bio electron photons from the electric fluid it can include transference of hundreds of different natural acids as well as amino acids. Each biological agent BA is capable to transfer 3 to 6 different natural and amino acids, by enriched bio electron photons.

Sixth, these enriched bio electrons photons are wirelessly transferred through and olive oil coating on the skin enabling the bio electricity to softly penetrate / bio electron photons always penetrate softly on the skin surface/ deeply and efficiently targeting the specific ailing human tissue.

This process is always skillfully directed into the body with the very gentle frequencies of Micro and Nano amperes allowing zero risk of negative consequences.

Biography

Nick Kostovic was born on December 6, 1950 in an area now known as region Dalmatia, currently Split Croatia. He graduated from Split Gymnasium in 1969 with an Associate of Arts Degree in Humanities and Science. He is US citizen. He has strong Italian ties through his father, Ivo Kostovic who has Italian and Asian origins.
