

World Congress on
ORAL CARE AND DENTISTRY
November 19-20, 2018 Cape Town, South Africa

Pieter Van Rooyen

University of Pretoria, South Africa

Overview of implantology: Using 3D software and CAD/CAM technology with implant placement and restoration

Overview of implantology. Incorporating digital planning into your implantology. Restoring your digitally planned implant with cad/cam.

Biography

Pieter van Rooyen has been graduated from the University of Pretoria with his BChD (Baccalaureus Chirurgiae Dental) degree and completed his Post-graduation in PPD Implantology course from Stellenbosch University near Cape Town. His focus has always been on refining the aesthetic and functional component in dentistry. He belongs to the SAAO (South African Association of Osteology) and is an Active Member and registered as an official Software Trainer with the ISCD (International Society of Computerized Dentistry).
