Energy alterations in patients with endometriosis and what can we do to prevent surgery?

Huang Wei Ling

Medical Acupuncture and Pain Management Clinic, Brazil

Introduction: Endometriosis is the clinical condition characterized by presence of endometrium outside the uterus. The treatment has many relapses when using surgical procedure and hormones therapy.

Purpose: to demonstrate that endometriosis have energy alterations in the back ground and the treatment of this energy imbalance (Spleen pancreas deficiency) avoiding dairy products, raw food, cold water and sweets and also, the use of auricular acupuncture is effective in relief the symptoms of all this patient.

Methods: through one case report of patient in treatment of endometriosis but nothing that they did to treat the condition was effective in the treatment of endometriosis. The clinical condition of endometriosis was that they were having abdominal pain without any alterations in the ultrasound and other exams. The treatment consisted in Chinese dietary counseling, auricular acupuncture with apex ear bloodletting. Chakras' energy measurement was done that revealed that all her chakras' were in the lowest level of energy with the exception of the seventh chakra, that was in normal level, rated in eight. It was used homeopathies medications to replenish the energy of the internal organs and in this case, was the cause of the formation of internal Heat inside the body, leading to abdominal pain.

Results: after some acupuncture sessions, the patient

reported that her pain disappeared completely and she did not have necessity to do the surgery anymore.

Conclusion: patients with endometriosis diagnosis have energy alterations that could induce the pain in the abdomen (internal Heat) and the treatment of the energy disharmony could improve the cause that was leading to the endometriosis symptom. The treatment on root level, treating the energy imbalances was very important to avoid the surgery in this patient.
