MedTour Assist Pvt Ltd., Saudi Arabia

Knowledge process outsourcing and medical tourism

Medtourassist is a company that gives customized and elite medical treatment and facilities. We understand that when it comes to the medical needs of a person, everything has to be customized accordingly. We offer customized services at economical rates. As an organization, we have confidence in keeping things straightforward and guarantee that we update our customers routinely. Our staff is continually progressing in the direction of ensuring that our customers get all the help they need. From the absolute first cooperation, our trained experts will remain close and direct you as needs be. From Visa to Travel and Accommodation arrangements and even planning your vacation, our team will guide you accordingly as well as take care of all the nitty-gritty's. When it comes to a person's health, a person should not make any kind of compromises. Even a small element of doubt should not be in the picture while making health related decisions. Whether it is looking for answers, making an important decision or just to understand what you need to do; taking a second opinion will always be helpful. Med Tour Assist's second opinion service is the one stop solution to clear any doubt that you have the health insurance sector is becoming more competitive and new operating models are coming into the spotlight. In a dynamic business environment, medical insurance payers must sustain their efforts in marketing and enrolment, building customer retention, and striking a balance between their profitability, purpose and perceived value. When it comes to medical insurance claims processing, the challenges are multi-faceted – volume, accuracy, speed of processing, administrative costs and regulatory compliance all have a hand in improving customer satisfaction. Our

comprehensive set of claims processing services manages all the facets of a health insurance claim. We ensure superior, faultless and low-cost output for our client's claims, while utilizing our personalized, audit-quality process documents for regulatory compliance initiatives and training purposes
