

Brief Interview with Dr. Adolfo Iulianelli

Journal of Membrane Science and Technology

1. How many years have you been practicing and/or performing research?

12 years.

2. What is the research topic you are working on now?

High grade hydrogen production from reforming reaction of renewable sources in membrane reactors.

3. What makes an article top quality?

Novelty and high impact in the related field of interest.

4. What are the qualities you look for in an article?

Organization of the structure, clearness of the research proposed, novelty, objectives achieved in the study.

5. Do you have any research funding (NIH or other national funding) now?

No at moment.

6. When did you become an editor of OMICS Journal?

On 2011

7. What is your greatest career accomplishment?

Editor of scientific books.

8. Do you have any patents?

By realizing studies as much as possible close to real interests.

9. What is the purpose of serving as an editor?

To guarantee the high quality and novelty of new publications.

10. Do you have any patents?

Yes, national.

11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

No.

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

Yes, Why Not.

13. Do you have any trouble with OMICS Journals in the past?

No

14. Would you recommend OMICS to your friends or colleagues?

Yes

15. How do you differentiate Journal of Membrane Science and Technology with other journals in the field?

In my opinion, this journal is innovative regarding to the proposals, objectives and modality of management.
