

Brief Interview with Dr. Aron D Mosnaim

Journal of Clinical & Experimental Pharmacology

1. How many years have you been associated with the current research?

30 years.

2. What is the research topic you are working on now?

Role of phenylethylamines and other biogenic amines in health and disease.

3. What are attributes for a quality article?

Original ideas, reproducible results, relevant topics.

4. Do you have any research funding (NIH or other national funding) now?

No.

5. When did you become an editor of OMICS Journal?

Recently.

6. Where can the journal find the maximum scope in terms of niche?

Basic and Clinical Pharmacology papers.

7. What is your greatest career accomplishment?

Developing the field of Trace Amines.

8. How does the published scientific content assist the potential researchers?

As stepping stones of further research.

9. What is the purpose of serving as an editor?

Assist researchers in publishing quality work.

10. Do you have any patents?

No.

11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

No.

12. Do you plan to contribute any editorials or papers to OMICS Journals in the coming year?

Yes.

13. How would you define your experience with OMICS Group?

Good.

14. Your opinion on conducting Editorial Board meetings at related Conferences?

Helpful, mind the expenses.

15. Would you recommend OMICS to your friends or colleagues?

Yes.

16. How do you differentiate Journal of Clinical & Experimental Pharmacology with other journals in the field?

Publishing Proceedings of National and International Pharmacology related Meetings.
