

Brief Interview with Dr. Jiaxu Li (Editor-in-chief)

Journal of Data Mining in Genomics & Proteomics

1. How many years have you been practicing and/or performing research?

Fifteen years.

2. What is the research topic you are working on now?

Protein phosphorylation, methylation and acetylation.

3. What makes an article top quality?

Novelty.

4. What are the qualities you look for in an article?

Novelty.

5. Do you have any research funding (NIH or other national funding) now?

No NIH funding.

6. When did you become an editor of OMICS Journal?

2011.

7. What is your greatest career accomplishment?

Discovered the first abscisic acid-activated protein kinase.

8. How does the research published percolate through to practitioners?

NA.

9. What is the purpose of serving as an editor?

Serving the research community.

10. Do you have any patents?

Yes.

11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

Yes.

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

Maybe.

13. Do you have any trouble with OMICS Journals in the past?

No.

14. Would you recommend OMICS to your friends or colleagues?

Yes.

15. How do you differentiate Journal of Data Mining in Genomics & Proteomics with other journals in the field?

No idea.
