

Brief Interview with Dr. Lilin (Editor-in-Chief)

Journal of Medical Microbiology & Diagnosis

1. How many years have you been associated with the current research?

Since 1991, when I was a master student, working on fish parasitology, which means 24 years.

2. What is the research topic you are working on now?

Infection and innate immunity, bacteria and waste water treatment.

3. What makes an article top quality?

Quality and new discovery.

4. What are the qualities you look for in an article?

the impact in the field.

5. Do you have any research funding (NIH or other national funding) now?

Yes, I have funding from National Natural Sciences of China (NSC), just like NIH in the USA.

6. When did you become an editor of OMICS Journal?

Never before.

7. What is your greatest career accomplishment?

Worked on a number of fish pathogens , trained in Japan, Germany, USA and Canada, published some good papers, and became Chairman and professor in China.

8. How does the research published percolate through to practitioners?

Collaborate with companies.

9. What is the purpose of serving as an editor?

Good opportunity to train myself.

10. Do you have any patents?

Yes.

11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

Unfortunately, not yet.

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

Sure.

13. Do you have any trouble with OMICS Journals in the past?

No.

14. Would you recommend OMICS to your friends or colleagues?

Sure.

15. How do you differentiate Journal of Bacteriology & Parasitology with other journals in the field?

Simply judge by the name, it focuses on the studies related to bacteria and parasites.
