

Brief Interview with Dr. SKogenaru (Editorial Board Member)

Journal of Bacteriology & Parasitology

1. How many years have you been associated with the current research?

I am in research since past 13-years.

2. What is the research topic you are working on now?

Systems biology of kidney diseases.

3. What makes an article top quality?

A breakthrough discovery narrated in a clear fashion makes an article of top quality.

4. Do you have any research funding (NIH or other national funding) now?

Not yet

5. When did you become an editor of OMICS Journal?

In 2014

6. What is your greatest career accomplishment?

The transcriptome profiling method comparison study I had carried out, showing that the two popular profiling methods RNA-Seq and Microarray complement each other.

7. How does the research published percolate through to practitioners?

Open access

8. What is the purpose of serving as an editor?

As an editor, I wish to volunteer responsibility to ensure fairness and also monitor for timeliness, thoroughness and civility associated with peer-review process.

9. Do you have any patents?

Yet to come

10. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

As of 2014, currently underway

11. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

Yes

12. Do you have any trouble with OMICS Journals in the past?

No

13. Would you recommend OMICS to your friends or colleagues?

Yes, I intend to do so.

14. How do you differentiate Journal of Bacteriology & Parasitology with other journals in the field?

A platform where there is dissemination of research in all functional aspects of microbiology, with application to improvement of life
