

Questionnaire with Dr. Sujoy Ghosh

Journal Hereditary Genetics Current Research

- 1. How many years have you been practicing and/or performing research?**
I have been in research since 2001.
- 2. What is the research topic you are working on now?**
Genetic and epidemiological etiology of Chromosomal Nondisjunction and Down syndrome birth to women. Molecular response to heavy metal toxicity in *Drosophila melanogaster*.
- 3. What makes an article top quality?**
Innovative ideas in designing the experiment; unique outcome of research effort that could help to expand the concept and horizon of the topic.
- 4. What are the qualities you look for in an article?**
Conceptually very unambiguous in its approach; Innovativeness in its experimental designing; development of new concept in specific subject
- 5. Do you have any research funding (NIH or other national funding) now?**
No.
- 6. When did you become an editor of OMICS Journal?**
On May 9th, 2014.
- 7. What is your greatest career accomplishment?**
Findings that women having Down syndrome baby is genetically older than the women having normal baby and publication of this finding in *Human Genetics* (2010).
- 8. How does the research published percolate through to practitioners?**
Publication with innovative ideas inspires the other worker to pursue further research in the direction of more important. Moreover, meta-analysis combining several published data some time reveals some new epidemiological facts.
- 9. What is the purpose of serving as an editor?**
Editor has opportunity to come close to the recent trends of research approach in specific area of interest. Serving an editor, one can expand his/her range of scientific thought and can able to evaluate his/her own standard of work amidst the global trend of research. The editor could important issues which are missing in present format and inclusion of which would have increase the quality of the manuscript serve to shape of the manuscript to a level of excellence by addressing and suggesting some of.
- 10. Do you have any patents?**
No.
- 11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?**
. No
- 12. Do you plan to contribute any editorials or papers to OMICS Journals in the near future?**
Yes.
- 13. Do you have any trouble with OMICS Journals in the past?**
No
- 14. . Would you recommend OMICS Group to your friends or colleagues?**
Yes.
- 15. How do you differentiate Journal of Hereditary Genetics: Current Research with other journals in the field?**
Hereditary Genetics is still fast growing field and the Journal growing day by day to keep consistency in publishing more number of articles. The field itself complete major topics comes under the Human stats.
