

Brief Interview with Dr. Ying-Hsiu Su (Editor)

Journal of Microbial and Biochemical Technology

1. How many years have you been practicing and/or performing research?

15 years

2. What is the research topic you are working on now?

Cancer biomarkers

3. What makes an article top quality?

novel and demonstrated by solid experimental approaches, translational

4. What are the qualities you look for in an article?

scientific process and translational potential

5. Do you have any research funding (NIH or other national funding) now?

Yes

6. When did you become an editor of OMICS Journal?

2-3 Years ago

7. What is your greatest career accomplishment?

Studying polysaccharide gum production.

8. How does the research published percolate through to practitioners?

Research usually percolates through searchable databases where practitioners search on a specific topic.

9. What is the purpose of serving as an editor?

service and prestigious

10. Do you have any patents?

Yes

11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

No

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

Yes

13. Do you have any trouble with OMICS Journals in the past?

No

14. Would you recommend OMICS to your friends or colleagues?

Yes

15. How do you differentiate Journal of Microbial and Biochemical Technology with other journals in the field?

Good
