

2020 Young Scientist Award: 3rd International Conference on Surgery and Anesthesia

Burkhard Brandt

After finishing of our previous conference, we are getting a huge response from the speakers\attendees and we happily announce that, we are organizing a conference on [“3rd International Conference on Surgery and Anesthesia”](#) was scheduled on May 13-14, 2020 in the most attractive city of Singapore, focusing with the theme of: ‘Eternal Evolutions on Surgery and Anesthesia’.

It is a scientific association well known for promoting scientific temperament and has been performing very well in Business and Management and may be a good platform for our readers. The main motto is making the information on Surgery and Anesthesia. It is a specialized in science publisher that operates in collaboration with the association and societies. This publishing house has been built on the base of esteemed academic and research institutions including polymer scientists, technologists, Chancellors/Vice Chancellors/ Promoters / Directors / Principals / Chairpersons /Academicians / Senior Management / Administrative Heads & Decision makers of Universities /Higher Educational Institutions (Public & Private)Media... and many more.

Main highlights of the [conference](#): General surgery and its specialties, Bariatric surgery, Otorhinolaryngology surgery, Cosmetic surgery, Cardiac surgery, Endocrine surgery, Ophthalmic Surgery , Oral and maxilla facial surgery, Neurosurgery, Hepato Biliary and Pancreatic Surgery, Surgical oncology, Robotic surgery, Trauma surgery and critical care, Laproscopic and gall bladder surgery, Perioperative care and anesthesiology, Urology surgery, Orthopedic surgery, Pediatric surgery ,Inguinal hernia surgery, Cataract surgery and many more.

Burkhard Brandt

European Expert in Clinical Chemistry and laboratory medicine (EC4), Clinical Chemistry, University Klinikum Schleswig - Holstein ,Germany, E-mail: Burkhard.Brandt@uksh.de

Surgery and Anesthesia will focus on many interesting scientific sessions and covers all frontier topics in polymers which include Basic Principles in Surgery and Anesthesia, cardiac surgery, plastic surgery and many more from across the globe, it held with the discussions on ophthalmology surgery, Anesthesia care. It is also a great platform for researchers, practitioners and educators to present and discuss the most recent advances, trends, and concerns as well as practical challenges and solutions adopted in the fields of current research and applications of Surgery and Anesthesia.”3rd International Conference on Surgery and Anesthesia” to be held during May 13-14, 2020 at Singapore, provides prompt keynote presentations, Oral talks, Poster presentations and Exhibitions, Sponsorships.

The [Young Researcher Award](#) is an initiative with the intention of supporting young researchers. This award recognizing for Masters\Ph.Ds.\ Post degree thesis work presentation who will present their projects and thesis that has been implemented to improve long run excellence within the field of Surgery and Anesthesia. The selection Process will be done by the Organizing Committee.

It is specially designed for postgraduate students (MSc, PhD...) designed to provide students with the opportunity to present their work in a friendly, supportive forum and to receive feedback from mentors and peers.

The Young Research Forum offers for all young researchers and scientists and students for possibilityto meet and discussabout their own research topics and methodologies to shareand develop their ideas, learn from each other and gain knowledge from eminent

Brandt B.

speakers.

The conference also provides delegates/Listener opportunity to share and explore ideas and views in the area of Surgery Anesthesia.
