

2020 Young Scientist Awards (YRF) for Global Hematology 2020

Allied Academies Ltd synchronises 3000+ International conferences throughout the sphere. Carrying the 25 years of milestones in conferences & its victory vibes in heart & mind Allied Academies Ltd stepping forward towards 5th International Conference on Clinical Hematology and Transfusion Medicine that is scheduled in Rome, Italy in the month of Feb 24 & 25, 2020. Theme "Breakthrough notions in Hematology and Transfusion Medicine" integrates prompt key presentations, Poster presentations and Exhibitions.

Now we are glad to announce the 2020 Young Scientist Award for the Young Research Forum. This is a unique opportunity for early-career scientists to develop their skills and showcase their work! So, come with your colleagues and associates.

Young Scientist Meetings are established by the Clinical Hematology and Transfusion Medicine, to furnish a distinctive platform for Young Scholars/Researchers for exhibiting most recent research ventures with a comprehensive assessment.

Eligibility:

- Candidate should contain a Ph.D. thesis
- Should fulfil 34 years
- Relevant papers should be in English & published in an international journal or in a conference proceeding with review process related to the thesis and the topic must fit into scientific sessions of the conference.
- Contestants should be less than the age of 33 years
- Every Single individual contributor can submit only one paper

The Awards are systematized with the objective of appreciating one's contribution to the field and following the idea of supporting for more active involvement for the advancement of the research sector.

Number of Awards:

The quantity of honors to be made in a year will be constrained to 25.

Nominations, Last Date & Pricing:

Last date for Initial application **December 30** - \$399

Last date for Initial application **January 28** - \$499

Last date for Initial application **February 15** - \$599

Selection Committee for the Award All the reasonable submissions, based on the subject section of the work, will be judged by the respective sectional boards of the organization. Our panel include organizing committee members & editorial members of International journals.

Announcement of the Awards The names of the Early Researchers nominated for the award by the Selection Committee shall be proclaimed at the Global Hematology 2020 Meeting in the month of February during the event.

Rome is red carpeting this event in February during 24th & 25th. The conference starts at 9:00 AM with inauguration, keynote talk and other informative talks on various sessions, touching all the departments with experts from all over the globe. In between refreshment and networking and ends at 6:00 PM. It is a two-day conference with a blend of diverse advanced and traditional topics.

Our supporters include organizing committee members, editorial members of International journals, its associated journals, media partners, collaborators from various Internal Organizations and our past participants include doctors, scientist, nurses, researchers, young research forum (YRF) and students.

A quick glance on Hematology Global Market:

Market Evaluation:

The scope of the worldwide Hematology market is expected to grow over the next few years owing to rising rates of blood disorders such as, malaria, and thalassemia, combined with ever-increasing incidences of kidney ailments. The expanding cases of blood-related disorders, such as anemia, blood cancer, etc., may lead to the growth of the hematology market. North America is the first largest market and Europe is the second-largest market, while Asia-Pacific is the fastest expanding region.

The Hematology arena was valued at US\$ 3,167.2 million in 2017 and foreseeable to range US\$ 5,288.3 million by 2028 at a CAGR of 5.9% throughout the forecast period from 2018 to 2026.

About City Rome:

Rome is a city full of antiquity and overtures countless events to see and do including museums, ancient headstones and parks. Most of the popular tourist places in Rome - monuments, museums & churches - display architectural excellence & have a rich history. Discover the most fashionable tourist charms.

Conference Highlights, Assessment Criteria and Benefits:

The Young Researchers Forum (YRF) recommends early

investigators the opportunity to convene and talk about research themes and approaches, to share and expand concepts, learn from each other and increase awareness from leading scientists.

We genially invite Young Scholars from Universities/Organizations/Businesses to deliver a quick oral lecture during the conference. These presentations should be of 10 minutes-15 minutes interval in correlated scientific tracks mentioned below, monitored by 5 minutes question time. Hence, hosts are reassured to give thorough and dynamic discussions. Submissions will be carefully chosen based on earlier exploration productivity and potential assurance.

Conference Highlights:

Hematology, Cardio-Oncohematology, Hematologic Cancers, Hematology Case Reports, Vascular Blood Disorders, Hematology and Neurology, Blood Syndromes: Diagnosis and Treatment, Cord Blood Transplantation, Organ Specific Cancer, Biomarkers in Hematology and Oncology, Stem Cell Therapy, Hematology and Pharma Industry, Clinical Hematology, Transfusion Medicines, Diagnosis and Screening of Hematology, Pediatric Hematology, Immunohematology

Significant hematologists, Hematology Oncology instructors, postgraduates, associations and business meanders will gather under the same rooftop.

The application for the 2020 Young Scientist Award can be submitted here @ Global Hematology 2020.

- Journal of Hematology and Blood Disorders
- Journal of Blood Disorders & Transfusion
- Journal of Medical Oncology and Therapeutics

Assessment Criteria:

- Methodology, novelty and simplification of the work
- Significance of the findings on Hematology, Oncology and Transfusion Medicine
- Suitable casting and/or investigational methods for Hematology, Oncology and Transfusion Medicine

Benefits of joining us:

- You can showcase your research through oral presentations.
- Absorb the career development and the latest research tools and technologies in your ground.
- Cultivate a basis for alliance among young researchers.
- The conference will offer a prospect for collegial

interface with other young researchers and established chief investigators throughout the globe.

- Occasion for young scientists to be taught about the research areas of their contemporaries to increase their power as multidisciplinary researchers.
- Energetically dispense information and encourage the benefits of education and career affairs.
- This meeting will give appropriate and timely knowledge to those who conduct research and those who apply and gain from research.
- Act together and share concepts with both associates and counsellors.

Proposals for nominations can also be sent to Catherine Jacob through mail at heamtologyconference@alliedglobalevents.com or WhatsApp: +34932716034

Let's have a discussion on these latest updates in Rome! Rome red carpets every individual to open-up for the discussions and its evolution.
