

About the Journal

Agrotechnology is an open access journal; all the articles are peer reviewed by eminent people in the field. Journal strives to publish and get a worthy impact factor by quick visibility through its open access guiding principle for world class research work. Journal Agrotechnology is a academic journal and aims to publish most complete and reliable source of information on the discoveries and current developments in the mode of original articles, review articles, case reports, short communications, etc. in all areas of the field and making them freely available through online without any restrictions or any other subscriptions to researchers worldwide.

Aims and Scope

Agrotechnology is a broad-based journal found on two key tenets: To publish the most exciting researches with respect to the subjects on Agriculture: Secondly, to provide a rapid turn-around time possible for reviewing and publishing and to disseminate the articles freely for research, teaching and reference purposes.

Agrotechnology, a broad-based journal was founded on two key tenets: To publish the most exciting researches with respect to the subject of Agrotechnology. Secondly, to provide a rapid turn-around time possible for reviewing and publishing and to disseminate the articles freely for research, teaching and reference purposes. As a member of publishers international Linking association, PILA, Journal of Agrotechnology (of Longdom Publishing SL) follows creative commons License and scholars open access publishing policies. Agrotechnology brings articles in all areas related to Agriculture, Crop Science, Genetically modified Crops, BT crops, Forestry, Soil Science, Irrigation Technology, Advancements in Agriculture Technology, Agricultural Machinery etc. Agrotechnology welcome the submission of manuscripts that meet the general criteria of significance and scientific excellence. Papers will be published approximately 15 days after acceptance.

All works published by Longdom Publishing are under the terms of the Creative Commons Attribution License. This permits anyone to copy, distribute, transmit and adapt the work, provided the original work and source is appropriately cited. Agrotechnology strongly supports the Open Access initiative. All published articles will be assigned DOI provided by Cross Ref. Agrotechnology will keep up-to- date with the latest advancements in the field of Agriculture. Abstracts and full texts (HTML, PDF and XML format) of all articles published by Agrotechnology are freely available to everyone immediately after publication. Agrotechnology supports the Bethesda Statement on Open Access Publishing.

Indexing and Archiving

All published articles of this journal are included in the indexing and abstracting coverage of:

Index Copernicus

Google Scholar

Sherpa Romeo

ResearchBible

Publons

Virtual Library of Biology (vifabio)

Submit manuscript at www.longdom.org/submissions/agrotechnology.html or send as an e-mail attachment to the Editorial Office at agrotechnol@emedscience.org.
