

Brief Note on Pharmacoepidemiology and Drug Safety

Christiane Wobus*

Department of Pharmacology, University of Michigan, Michigan, USA

DESCRIPTION

Advances in Pharmacoepidemiology and Drug Safety is a peer-reviewed open-access journal published monthly that focuses on studies pertaining to rare adverse drug reactions, drug efficacy evaluations, drug interaction quantifications, patterns of drug usage, herbal medicines, randomised control trials, case-control studies, cross-sectional studies, case cross over studies, and cohort studies. The journal also serves as a repository of information in pharmacoepidemiology and drug safety that physicians, surgeons, medical scientists, public health professionals, medical students, clinicians, lab researchers, academicians, and industry can use to retain them informed and to develop future research programmes. The journal publishes reports on a variety of topics, including new challenges of excessive drug use, insufficient drug use, and inappropriate drug use, pharmacoepidemiology, advances in molecular biology techniques, and identification of genetic determinants of drug effects. The journal welcomes all original research articles, review articles, commentaries, and letters to the editor that focus on pharmacology-related exposures or health outcomes.

The journal's International Standard Serial Number is (2167-1052), it has an Impact Factor of 8.71, and it has a journal site score of 7.24. Advances in Pharmacoepidemiology and Drug Safety articles have been cited by renowned scholars and scientists all over the world and Journal has an H-index of 12 and 517 Google Scholar Citations, implying that each article published in this journal receives 14 average citations. Advances in Pharmacoepidemiology and Drug Safety is a medical journal that is also included in prestigious databases such as Open J

Gate, Genamics JournalSeek, Academic Keys, Geneva Foundation for Medical Education and Research, Publons, Euro Pub, Google Scholar, and others. The editorial office ensures a rigorous peer-review procedure for submitted articles in order to maintain publishing quality and a high journal impact factor. We welcome all doctors, distinguished writers, students, graduates, and others from around the world; our publication is the ideal venue for showcasing various types of case reports from around the world. Most of our papers are indexed in renowned databases such as Google Scholar, Scopmed, and PubMed, and we are a well-known publisher.

On behalf of the journal's Board of Directors and my co-editors, I am delighted to announce Volume 11, Issue 2 of Advances in Pharmacoepidemiology and Drug Safety. Since its inception in 2012, the journal has published a total of 11 issues. The average download per article is growing, with 100+ downloads per publication. All of these are signs that things are looking up to meet the journal's standards to the next level. We arrived at this point thanks to our Board of Directors' ongoing guidance and support, as well as the generosity of our readers and contributors (authors and reviewers). As always, we would like to express our appreciation to our dedicated faculty advisers. Our journal would not be possible without their advice and support, and we appreciate the time and effort they have put into it. Finally, the departing board would like to extend its best wishes to the new board members for the coming year. We hope that the next board will continue to work to reflect the previous ten years' efforts and to establish in future Editorial board members a strong work ethic and a love of academic scholarship.
