

Dentistry Open Access

Emilia Clark*

Department of Oral Biochemistry, Asahi University, School of Dentistry, Japan

LETTER TO EDITOR

Dentistry is a peer reviewed, multidisciplinary, open access medical journal that publishes articles related to dentistry field like endodontic, orthodontics, digital dentistry, minimal intervention dentistry, dental implants, prosthodontics, restorative dentistry, forensic dentistry, digital dentistry, restorative dentistry, oral and maxillofacial surgery, periodontics, etc. and creates a platform for the authors (Researcher/Scientist/Scholar, Professor, Medical Professional, Student, etc.) to make their contribution towards the journal. On the behalf of Editorial Board Member it is a great honour and Privilege to mention that journal has been completing the 9th anniversary with regular issues containing vast research work in the field of Dentistry.

The open access journal is published by OMICS International who hosts around 700 open access peer-reviewed journals as well as organizes more than 500 International scientific Conferences. Dentistry: Open Access is one of the best Journals that aims to publish the most complete and reliable source of information on discoveries and current developments in the mode of editorial, research article, review article, mini review articles, case reports, short communications, commentary, opinion, prospective, rapid communication etc in this field. All the manuscripts submitted for publication are first undergo Preliminary Quality Check Process and after that undergo peer review process by eminent scientists. Dentistry: Open Access provide online access without any restrictions or subscriptions to researchers. Immediately after the publication process abstracts and full texts (HTML, PDF and XML format) of all articles published by Dentistry are freely available to everyone.

In today's wierd world we can find all the information at the click

of the button, courtsey the Internet. There are n numbers of subscription-based journal in OMICS, but Dentistry: Open Access journal gives a worldwide audience larger than that of any, no matter how prestigious or popular, and probably increases the visibility and impact of published work. Dentistry journal gives barrier-free access to the literature for research. Literature for software that facilitates mining, summarizing, translating, querying, linking, indexing, full-text searching, recommending, alerting, "mash-ups" and other forms of processing and analysis is freely available online. Dentistry puts rich and poor on an equal footing for these key resources and eliminates the need for permissions to reproduce and distribute content.

One of the best ways to communicate with the customers is advertising. Dentistry: Open Access is specializes in digital advertising and in this way the journal attract new customers quickly and efficiently. Dentistry: Open Access uses various advertising options such as banners, sponsored emails, article alerts or newsletters and provide best customized marketing opportunities in science and medicine to clients.

Longdom Publishing SL welcomes proposals for special issue that falls within the scope of the Dentistry: Open Access Journal. The aim of special issue is exploring new, relevant, and the most compelling dimensions in the field of Dentistry that missed a mention in the journal on a regular basis.

ACKNOWLEDGMENTS

I would like to express our gratefulness to the authors of articles published during the past years, and to acknowledge generous help which both the authors and editors obtained from the peer-reviewers.
