

### **Editorial Note for Agrotechnology**

I am pleased to introduce Agrotechnology (AGT), a rapid peer reviewed Journal is one of the leading peer-reviewed journals supporting rapid publication forum. The journal publishes high quality manuscripts from basic, fundamental, applied research developments in Agrotechnology. Agriculture comprising various forms of ecosystems of late, has witnessed some kind of uncertainty on account of shifting weather. This has emerged as a major challenge, and need greater scientific interventions than ever before to inflict the desired resilience in crop raising and keep the uninterrupted journey of agricultural progress which must feed teeming billions. Journal expects authors and researchers to submit their articles in the areas but not limited to Agriculture, Seasonality, Farm equipment, Agricultural practices, Genetic engineering, Bt Crops, Tissue culture, Advanced Agriculture technology, Advanced Agriculture machinery, Agrotechnology, Modern farming technology, Advanced methods in agriculture.

I am pleased to announce that, all issues of volume 8 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online during the year of 2020.

The Journals aims to flourish and to maintain the standards in research and practice, provide platform and opportunity to present evidence based medicine and analytical assessment of research and probably it is much indeed for students, teachers and health care professionals to enhance the patient care.

During the calendar year of 2019, AGT received a total of 40 manuscript, out of which 30% articles were rejected in the preliminary screening due to plagiarism or being out of the format and peer review process. During 2019 around 10 articles were subjected for publication after they are accepted in the peer review process. In the 2 issues of Volume 8 published during the year 2019, a total of 10 articles were published (at an average of 5 articles per issue) of which, articles were published from authors all around the world. Globally articles have been accessed by the research scientists and also cited.

During the calendar year 2019, a total of two Editors, seven Reviewers joined the board of BLM and contributed their valuable services towards contribution as well as publication of articles, and their valuable reviewer comments will beneficial to publish quality of article in the Journal.

I take this opportunity to acknowledge the contribution of our reviewers for their exceptional support during the peer review process and the managing editor during the final editing of articles published and the support, in bringing out issues of JDMT in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of BLM, the office bearers for their support in bringing out yet another volume of BLM and look forward to their unrelenting support to bring out the Volume 12 of BLM in scheduled time.
