INTRODUCTION

With an incredible joy, I would like to communicate my satisfaction just before going into the tenth year of this scientific distributing field. At first we began this Agrotechnology journal with the plan to spread progressed information everywhere on the globe. Fortunately, with the steady help of eminent editorial board members, potential commentators and dynamic writers we were able to run this journal so effectively till now and we trust it proceeds in not so distant future moreover.

Agrotechnology journal is a biannual journal. In the year of 2020, we were able to release 6 issues because of the tremendous support received from the authors. In the previous years, aside from delivering regular issues we have also conducted conferences on various research topics such as: 3rd International Conference on Agriculture & Horticulture, International Conference on Agri Biotech & Environmental Engineering, etc. As of now, our principle center is to make scientific papers more open for the aspiring researchers who want to excel in this field of agrotechnology. With the help of editorial board members, executive editors and potential reviewers, we want to come up with some special topics to energize the writers. Agrotechnology journal goes under the best ten journals in this open access field. Agrotechnology is a mixed just as engaged journal aiming to distribute great original copies from essential, central, applied examination advancements in Agrotechnology. Horticulture including different types of environments of late has seen some

sort of vulnerability by virtue of moving climate. This has arisen as a significant test, and need more noteworthy logical intercessions than at any other time to deliver the ideal versatility in harvest rising and keep the continuous excursion of rural advancement which should take care of overflowing billions. Journal anticipates that writers and scientists should present their articles in the zones yet not restricted to Agriculture, Seasonality, Farm hardware, Agricultural practices, Genetic designing, Bt Crops, Tissue culture, Advanced Agriculture innovation, Advanced Agriculture apparatus, Agrotechnology, Modern cultivating innovation, Advanced strategies in horticulture.

All the authors are warmly welcomed to present their ongoing research works and results as any article sort of science correspondence, for example, original research, review, expert opinion, commentary, short note communication, case reports, book review, etc. to our Journal.

Agrotechnology journal would like to offer earnest thanks to editors Dr. Janusz Prusinski, Dr. Ioannis E. Papadakis, Dr. Khaja Mohteshamuddin, Dr. Aliyev Zakir Hussein oglu, Dr. Michael Tsatiris, Dr. VK Khanna, Dr. Siddhesh Ghag, Dr. Philip J Harris, Dr. Furuichi Naotaka, Dr. Teo Swee Sen, Dr. FeiBo WU and so forth for their colossal help, direction, administrations in each phase of publication process.

We generally anticipate work with a lot more creative researchers across the globe.
