

## Editorial Highlights for Journal of Biomolecular Research & Therapeutics

John Wayne

Managing Editor, Journal of Biomolecular Research & Therapeutics, E-mail: [editor.jbmrt@longdom.org](mailto:editor.jbmrt@longdom.org)

### EDITORIAL

I am pleased to introduce Journal of Biomolecular Research & Therapeutics (BOM) a rapid peer reviewed Journal which have a key concerns over the research in analysing biomolecules includes both macro and micromolecules and use of it in treating different diseases. I am pleased to announce that, all issues of volume 8 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online during the year of 2019.

The Journals aims to focus on Biomolecular research and use of biomolecules and different technologies like Nano-Technology in the diagnosis and treatment of various forms of Carcinomas, diabetes, obesity, reversing the aging process and improving overall well-being. It also deals with Organic Biomolecules, Biomolecular structures, Biomolecular engineering, Biomolecular modelling. It provides a unique forum dedicated to scientists to express on a wide array of Biomolecular Research & Therapeutics research.

This Journal creates platform for the authors to make their contribution regarding many aspects relating biomolecules and their usage in therapy of above stated diseases, especially in the treatment of various forms of Carcinoma like Basal cell carcinoma, Squamous cell carcinoma, Renal cell carcinoma, Invasive ductal carcinoma, Adenoma carcinoma.

All published articles of this journal are included in the indexing and abstracting coverage of Google Scholar, Index Copernicus, CAS Source Index (CASSI), Sherpa Romeo, Open J Gate, Genamics JournalSeek, Electronic Journals Library, ResearchBib, Refseek, Jamia Hamdard University, EBSCO, SWB online catalog, virtual Library of Biology (vifabio) and World Cat Labs.

During the calendar year of 2019, BOM received a total of 45 manuscript, out of which 28 articles (70%) were rejected in the preliminary screening due to plagiarism or being out of the format and peer review process. During 2019 around 17 articles were subjected for publication after they are accepted in the peer review process. In the 2 issues of Volume 8 published during the year 2019, a total of 17 articles were published (at an average of 8 articles per issue) of which, articles were published from authors all around the world. Globally articles have been accessed by the research scientists and also cited.

During the calendar year 2019, a total of three Editors, nine reviewers joined the board of BOM and contributed their valuable services towards contribution as well as publication of articles, and their valuable reviewer comments will beneficial to publish quality of article in the journal.

I take this opportunity to acknowledge the contribution of (Dr. Rahul Das) during the final editing of articles published and the support rendered by the editorial assistant, in bringing out issues of BOM in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of BOM, the office bearers for their support in bringing out yet another volume of BOM and look forward to their unrelenting support to bring out the Volume 9 of BOM in scheduled time. am pleased to mention that during the year 2019, all issues of volume 12 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online.
