

## **Editorial Note for Biochemistry and Analytical Biochemistry**

I am pleased to introduce Biochemistry and Analytical Biochemistry, is a rapid peer reviewed Journal and is one of the leading peer-reviewed journals supporting rapid publication forum organized by Longdom Publications under Omics International, With advancements in the technology, Journal of Biochemistry and Analytical Biochemistry (BABCR) focuses on maintaining their role in the Biochemical activity, Molecular process, Biochemistry. This Journal is Open Access which aims to publish most complete and reliable source of information on the discoveries and current developments in the mode of original articles, review articles, case reports, short communications, etc. in all areas of the field and making them freely available through online without any restrictions or any other subscriptions to researchers worldwide.

Journal of Biochemistry and Analytical Biochemistry' publishes the current research activities in this growing field of Biochemical activity and Biochemistry. I am pleased to announce that, all issues of volume 9 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online during the year of 2020.

Journal of Biochemistry and Analytical Biochemistry -Open Access gives barrier-free access to the literature for research. It increases convenience, reach, and retrieval power. Free online literature is available for software that facilitates full-text searching, indexing, mining, summarizing, translating, querying, linking, recommending, alerting, "mash-ups" and other forms of processing and analysis. Journal of Biochemistry and Analytical Biochemistry -Open Access puts rich and poor on an equal footing for these key resources and eliminates the need for permissions to reproduce and distribute content.

### **Journal Highlights**

Biomolecules

Inorganic Biochemistry

Blood Biochemistry

Cellular and molecular Biochemistry

The increasing trust of academicians is rising consistently at the rate of 3% each year. Reviewers joined the board of BABCR and contributed their valuable services towards contribution as well as publication of articles, and their valuable reviewer comments will be beneficial to publish quality of article in the Journal. I take this opportunity to acknowledge the contribution of our reviewers

for their exceptional support during the peer review process and the managing editor during the final editing by editor. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of BABCR the office bearers for their support in bringing out yet another volume of BABCR and look forward to their unrelenting support to bring out the Volume 10 of BABCR in scheduled time.

Stay Safe & Healthy...!

Thank you!

With kind regards,

John George

Associate Editor
