Editorial Note

I am pleased to introduce the Modern Chemistry and Applications (MCA) keen in publishing the latest advancements and innovations in a peer reviewed scientific journal known for rapid dissemination of high-quality research. This Modern chemistry Journal with high impact factor offers an open access platform to the authors in academia and industry to publish their novel research. It serves the International Scientific Community with its standard research publications. The journal focuses on providing most comprehensive and reliable information in advanced areas of chemistry such as organic, inorganic, analytical, physical, material, environmental chemistry etc with emphasis on current trends of computational and forensic chemistry and their applications. I am pleased to announce that, all issues of the 8th volume were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online during the year of 2019.

Journal publishes all types of Research like, original articles, review articles, short review, case reports, case studies, case series, short communications, etc. in all areas of related to chemistry. CAS Source Index (CASSI), Index Copernicus, Google Scholar, Sherpa Romeo, Open J Gate, JournalTOCs, RefSeek, Hamdard University, EBSCO A-Z, OCLC- WorldCat, Scholarsteer, Publons, Geneva Foundation for Medical Education and Research.

Impact Factor

The impact factor for the journal is Journal Impact Factor 1.13*. Impact factor measures the quality of the Journal.

As such, the journal aspires to be vibrant, engaging and accessible, and at the same time integrative and challenging, MCA received a total of more than 190 manuscripts, a total of 110 research scientists from all over the world reviewed the articles published in all volumes. Average publication lag time of an article was further reduced to 2-3 weeks. Average download per article is increasing and on an average there are 50 downloads per paper. All these are promising signs. We could reach this stage through the constant support of Board Members

and intellectual generosity of the readers and contributors (authors and reviewers).

Association with Longdom publishing group has increased Readership Metrics (By Google Analytics) of the Journal which can be accessed at Google Analytics Metrics. According to the Google Analytics, more than 6001 readers are visiting to our journal websites for submitting manuscripts, to browse the latest research published on diabetes and metabolism and to refer the published content for conceptualizing their research study, deriving research hypotheses, case reports and validating their contributions.

Readers from the major countries including United States, Japan, United Kingdom, India, Egypt and Nigeria visit our journal domain to learn about the ongoing research activities in this field.

Longdom Publishing Web Metrics (By Google Analytics)

I am delighted to mention that during the year 2019, all 4 issues of volume 7 were published online well within the time. As a supplement, MCA published conference proceedings named "10th International Conference on Chemistry".

Manuscripts can be submitted online via Editorial Tracking System or as an E-mail attachment to the Editorial Office at modernchem@echemistry.org MCA is using Online Review and Editorial Tracking Systems for quality review process and the authors can submit manuscripts and track their progress.

I take this opportunity to acknowledge the contribution of Editor-in-Chief: Yuming Zhao, John Yuen, Bimal Banik, during the final editing of articles published and the support rendered by the editorial assistants. Lastly I would like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of the Journal, the office bearers for their support in bringing out yet another volume and look forward to their unrelenting support for the successful release of upcoming editions Needless to say, any papers that you wish to submit,
