### EDITORIAL

Applied mechanics is a part of the physical sciences dealing with application of mechanics. It provides an open access platform in all aspects of science and engineering related to applied mechanics. The journal have wide range of fields to create a platform for the authors for their contribution towards the journal and the editorial office having a peer review process for the submitted manuscripts for quality of paper.

Journal of Applied Mechanical Engineering is an Open Access journal and aims to publish most reliable source of information on the discoveries and current developments as an original articles, review articles, case reports, short communications, etc. Papers all are freely available through online without any restrictions or any subscriptions to researchers worldwide.

Longdom Publishing SL is using Online Review and Editorial tracking Systems for quality review process. Editorial tracking System is an online submission and review system, where authors can submit manuscripts and track their progress. Reviewers can download manuscripts and submit their comments. Editors can deal the whole process. Publishers can see their manuscripts status what are in the pipeline awaiting publication. E-mails sent automatically to authors according to process completed.

Manuscript can be submitted via: at <https://www.longdom.org/submissions/applied-mechanical-engineering.html> or e-mail attachment to the Editorial Office at [editor@longdom.org](mailto:editor@longdom.org) Manuscripts number will be allotted to the corresponding author within 72 hours their manuscript submitted. Entire Peer review process takes 21 days, Timeline of processing from Submission to Publication is 45 days, and Manuscript will be published within 7days of acceptance.

In 2020 year we have till now successfully released volume 9, Issue 1 and now Issue 2 under process. Hope so we will successfully release remaining issue for Volume 9. In Current Issue we released two articles one entitled by "A Short Technical Note on the IR Signatures Studies and Designing Aspects of the IR Technology Devices for Defence Aircraft" whose authors are Kamal Nain Chopra, Ritu Walia. Another article entitled by "Technologies for Aircraft Noise Reduction: A Review" written by Mojtaba Sadeghian and Mofid Gorji Bandpy. Now Volume 9; Issue 2 article are under process. So article-in-press will release articles soon.
