## **Editorial Note**

With a great pleasure, I would like to express my happiness on the eve of entering into the 10<sup>th</sup> year of this scientific publishing field. Initially we started this <u>Journal of Ergonomics</u> with the aim to disseminate advanced knowledge all over the globe. Thankfully, with the constant support of eminent editorial board members, potential reviewers and active authors we are able to run this journal so successfully till now and we hope it continues in near future also.

Journal of Ergonomics provides the bimonthly publication of articles. In the year of 2019, we have published a very good number of articles, which were recent discoveries. In the past years, apart from releasing regular issues we have also published special issue articles on topics such as "Driver safety" which was edited by Dr. Jibo He, "Health and Safety Ergonomics" edited by Rabiul Ahasan and In-Ju Kim and there are many more such special issue topics which were released on a timely basis. At present, our main focus is to make scientific papers more accessible for aspiring researchers. With the support of editorial board members, executive editors and guest editors, we are planning to come up with interesting special issue topics to encourage the authors. Journal of Ergonomics comes under the top ten journals in this open access field. In 2020, we have already released one issue and now we are in the process of releasing another issue.

Authors are cordially invited to submit their current research activities and outcomes in the form of any article type of science communication such as original research, review, expert opinion, commentary, short note communication to our Journal.

Manuscripts can be submitted online via <u>Editorial Tracking System</u> or as an E-mail attachment to the Editorial Office at <u>ergonomics@eclinmed.org</u>. JER is using Online Review and Editorial Tracking Systems for quality review process and the authors can submit manuscripts and track their progress.

I take this opportunity to acknowledge the contribution of Dr. In-Ju Kim, Dr. Rabiul Ahasan, Dr. Jeff Hiserman, Dr. Luis Miguel Munoz, Dr. Philip G Fatolitis, Dr. D J Clements-Croome, Dr. Lu Xiaoshu, Dr. Thaneswer Patel, etc. who always been active participant during the publication process, overseeing the peer review process, contributing editorials to the journal regular issues and moreover their valuable suggestions for the smooth functioning of the journal. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of JER, the office bearers and staff for their support in bringing out yet another volume of JER and look forward to their unrelenting support to bring out the Volume 10 of JER in scheduled time.

We always look forward to work with many more young scientists across the globe.
