

## Exploring The Current Advancements In Pharma Science

Alejandro De La Parra

We are coped to enormous delegate experts, company representatives and other eminent personalities who supported the conference by facilitating active discussion forums. As per the requests from our previous participants we are glad to introduce the World Pharma Conference.

**Bringing the series back with, Pharma Science 2020!**

After much anticipation from our previous participants, we are organizing the **“World Pharma Summit”** on **29-30 September, 2020** to take place in **Tokyo, Japan**.

Dr. Elsayed Ahmed Elnashar is serving as an Organizing Committee Member. He holds several academic administrative positions: Dean, Vice Dean, Head of Department, and Member of international scientific committees and will be delivering valuable keynote speech for the conference Pharma Science 2020.

The theme for Genetics 2020 is: Revolution in Pharma Science

We hereby put forth Pharma Science 2020 as an interdisciplinary program that meets the demand for education and development in the fields of medicine, pharma, Pharmaceutical societies, Associations, Physicians and clinical pharmacists, Cosmetic companies etc.

Our aim for this series is to administer an academic feast for all the eminent person of this field to share their ideas and provide a critical review on the topic **“PHARMA SCIENCE 2020”**. This conference includes hearings from experts in pharmaceutical research, Personalized & Targeted Medicine and related topics in order to promote development and education in the field.

With many more additions to the previous sessions our conference highlight for Pharma Science 2020 includes: Professors and Associate Professors, Directors and CEO's of Organizations, Physicians and clinical pharmacists, Medicinal and Pharmaceutical companies, etc.

The Pharma Science 2020 deliberations focus on analysis, prediction and prevention of disease as doctors occupies the most important role in the diagnosis of disease and its sub-specialties and is designed to provide a platform for discussion and networking as well as to share new ideas, advancements and research related to the field.

This Academic event includes imperative Keynote forums, plenary presentations, poster presentations, workshops, exhibitions and more. By participating in forums, sharing research and collaborating, the research community will be much benefited.

Organized with the motive of accentuating the research with the help of international paediatrics, surgeons, engineers and researchers by bringing together all the related experts and professionals under a single summit to emphasize the developments in health care and the future holds of Surgery.

We welcome you all to connect, contribute and collaborate with doctors, Academicians, Health care Professionals, and researchers/surgeons from around the globe in Pharma Science 2020, 29-30 September, 2020.
