

## Invitation to Contribute to the Special Issue on “Microbial Ecology”

Santosh Badure

Department of Biotechnology, Aurora's Technological and Research Institute, India

### Editorial

I am pleased to introduce you to the upcoming special issue on the theme ‘Microbial Ecology’ planned to be published in the Journal of Petroleum and Environmental Biotechnology.

The Journal of Petroleum and Environmental Biotechnology is successfully running its 11th Volume and has published around 250 scientific papers on various aspects of Petroleum and Environmental Biotechnology.

The journal’s editor team has decided to accumulate some timely scientific findings on microbial ecology and its related aspects in upcoming special issue slot.

A dedicated editorial team headed by Dr. Anahit Penesyan (University of New South Wales) will be editing the given special issue topic.

As a part of this special issue researchers and scholars are invited to submit manuscripts on all aspect of microbiology ecology research but not limited to the topics such as microorganisms interactions, Integrated advances in microbial ecophysiology, Microbial survival and persistence mechanisms, epidemiology, etc.

The Journal follows a stringent double blind peer review process for all submitted manuscripts. As the submission for the special issue would be limited in number & would be processed on a First come First Serve basis. You may submit the manuscript online via <https://www.longdom.org/petroleum-environmental-biotechnology/submit-manuscript.html> OR as an email attachment to editor@longdom.org
