Past Conference Report: Proceedings of 26th International Conference on Human Metabolic Health: Diabetes, Obesity and Endocrinology

Proceedings of 26th International Conference on Human Metabolic Health: Diabetes, Obesity and Endocrinology which was held during June 22-23, 2020 through webinar.

With the active participation and support of the Organizing Committee Members, Editorial Board Members and impressive presentations of all eminent scientists, talented researchers and young student community made this conference one of the most successful and productive events in ME Conferences.

The conference was initiated with a warm welcome note from our Honourable guests and followed by Keynote sessions. We would like to convey the great appreciation to the Honourable moderator for the conference who contributed a major part to the success of this event.

The major sessions included in this meet are Tissue Science, Biomaterials & Bioengineering, Cancer Therapy, Anti-Aging and Functional Medicine, Bio banking, Nanotechnology in Tissue Engineering, Biomaterials and Biomedical Applications, Emerging Nanotechnology for Stem Cell Therapy, Embryonic Stem cell and many more.

The highlights of the meeting were the enlightening keynote lectures from:

• Rohini A1, College of Pharmacy, JSSATE, Noida

Human Metabolism 2020 would also like to thank the following speakers for their splendid presentations on their research.

- Nariman Fahmi, Abou Seifein Diabetes Centre, Egypt
- Shagun Bindlish, Touro University, USA
- Ding You-Ling, Seknova Biotechnology, Taiwan
- Syed Isharat Ali Kazmi, Martin Dow Marker Pvt Ltd, Pakistan
- Abhishek Shrivastava , Jabalpur Sub-District, Madhya Pradesh, India

We hope your favorable support will make next series of 27th International Conference on Human Metabolic Health: Diabetes, Obesity and Endocrinology to be held during May 10-11, 2021 Bali, Indonesia one more grand success event.

We welcome all the eminent researchers, professors, students and delegate participants from worldwide to partake in this forthcoming gathering to witness invaluable scientific discussions and add to the future advancements in the field of infectious diseases.
