- Terminal Care

The classification extends to the above and its related topics too.

During the year 2019, the Journal has released nearly 9 articles. During May, Longdom Group has acquired this journal from Omics group and from

then on, all rights has been taken by the Longdom Group only.

The Journal has released the conference details also in the 5<sup>th</sup> volume.

### Some of the articles released in 2019 are as follows:

1. Reflection of New Graduate Nurses on the Transition Program Conducted in the Selected Malaysian Private Hospitals.
2. Understanding Philippines Nurses' Competency in the Delivery of Healthcare Services.
3. Singleton Partial Molar Pregnancy Delivered in Third Trimester: A Case Report.
4. Market Analysis: Exaggerating New Trends in Patient Safety and Nursing Education, London, UK on March 19-20, 2020.

### Social media/digital marketing

The journal always was in contact with the scientific group of the world through its mails, social media networks and its digital platforms. Some of the best ways to be in contact with the audiences are:

1. Twitter postings: Regularly posting the articles, trends, updates of the journal. They can be visible at: @JPatienCare.
2. Posting Google Analytics data in the website.
3. Using LinkedIn and Facebook for regular updates.
4. Regularly being in contact not only through mails but also through Whats App.

Lastly, Journal of Patient Care is nothing without the continuous support of the Editorial Board Members especially our Editor-in-Chief Jongwha Chang. The Editorial Board members are the backbone of the journal. Along with them, authors and reviewers play a very significant role in building this journal.

So, as an Editorial Co-ordinator I invite all the extended dignitaries in this field to submit their articles for bringing this research/expertise to the global scientific community.

**Editor-in-Chief:**
