Department of Hematology, University of Khartoum, Khartoum, Sudan

### DESCRIPTION

I'm glad to express that during the mid-year 2021, the Journal of Blood Disorders and Transfusion (JBDT) has adequately delivered its twelfth volume and has conveyed 5 issues individually. Diary of Blood Disorders and Transfusion is an insightful diary that considerations on all fields of atomic hereditary qualities, pathophysiology and the study of disease transmission just as avoidance, analysis, and the board of blood issues with existing condition of examination in the field of bonding medication, hematology, hemato-oncology, pediatric hematology, lab hematology, neuropathy, blood givers, thalassemia, bone marrow transplantation, hostile to HBc, haemodilution, hemodialysis, blood immature microorganism, blood issues, Rh factor, blood malignant growth, platelet problems, hemolytic weakness and so forth Close by these it's an International Standard Serial Number (ISSN) as 2155-9864. More than 50 well conspicuous specialists all around the world were going about as article board for our diary. In excess of 400 articles were submitted which fuse Review, research articles, case reports, short interchanges, etc. In a typical the article affirmation or excusal will be instructed to essayist inside 21 to 30 days of introductory accommodation while the starter quality check result will be perceived inside 24 to 48 hours of early accommodation. For straightforward contact of creators, JBDT has given whatsapp contact number in our landing page so that creators can contact effectively for any inquiries or worries to article colleague. Publication, Review, and Manuscript global positioning framework was presented for simple following of the composition by creator, manager just as distributor. Creators can follow their composition effectively by using gave certifications

during the time of accommodation. In 2020 JBDT is endeavor to secure quality articles related to blood disease, lupus, neutropenia, red platelets, white platelets, plasma cell problems and so forth In 2020, JBDT has picked to use individual to individual correspondence (long range interpersonal communication stage) stage like twitter, LinkedIn to have straightforward association with editors, commentators, creators, just as open and famous specialists. The new issues concerning blood issue thought are posting on standard daily schedule in twitter. Likewise we should thank our readers for their assistance. We are having more than 2000 readers worldwide and this will be only possible with open access diary. Our diary gives its Google assessment report and the guest's traffic is the norm for the achievement of any coherent diary and the JBDT is consistently attracting watchers across the world. Readers from the huge countries including Japan, United States, Japan, United Kingdom, Saudi Arabia, India, Egypt, and Pakistan visit our diary region to get some answers concerning the on-going investigation practices in this area. For its approaching volume of JBDT, we will give comparative features similarly as 2020 and with the creator's help and examiners work we will go further with each issue for a month consistently and with more assistance from Editorial gathering we will endeavor coin unprecedented issue related to the subject of our Journal. For sure I may in like manner need to offer my gratitude to all creators, commentators, the distributor, the warning and the publication leading body of JBDT, the work environment transports for their assistance in bringing out one more volume and expect their determined assistance to draw out the Volume 12 issue 6 of JBDT in arranged time. We ensure the total of the readers that we do our level best in this long haul.
