Faculty of Agriculture, Sher-e-Bangla Agricultural University, Dhaka, Bangladesh

Agritourism implies travel coordinated around cultivating, limited scope food creation or creature farming. Visiting a working homestead or farm with the end goal of delight and schooling are key pieces of this frequently provincial experience.

Agritourism has incredible breadth in the current setting for the accompanying reasons: an inexpensive gateway - The expense of food, convenience, diversion and travel is least in agritourism. This broadens the traveller base. Present idea of movement and the travel industry is restricted to metropolitan and rich class which establishes just a little part of the populace. In any case, the idea of agritourism takes travel and the travel industry to the bigger populace, augmenting the extent of the travel industry because of its expense adequacy.

Interest in the cultivating business and way of life-The metropolitan populace having establishes in towns consistently have had the interest to find out about wellsprings of food, plants, creatures, crude materials like wood, handiworks, dialects, culture, custom, dresses and country way of life. Agritourism which spins around ranchers, towns and farming has the ability to fulfil the interest of this portion of populace.

Solid interest for healthy family arranged sporting exercises - Villages give sporting freedoms to all age bunches for example kids youthful, center and mature age, male, female, altogether to the entire family at a less expensive expense. Provincial games, celebrations, food, dress and the nature gives assortment of diversion to the whole family.

Wellbeing cognizance of metropolitan populace and discovering comfort with nature amicable methods - Modern way of life has made life upsetting and normal life expectancy has descended. Subsequently, individuals are in steady inquiry of favourable

to nature intends to make life more quiet. Ayurveda which is a favourable to nature clinical methodology has establishes in towns. Native clinical information on locals is regarded. Natural food sources are in more prominent interest in metropolitan zones and outside nations. Altogether, metropolitan people are looking towards pronature towns for arrangements.

Want for harmony and quietness-Modern life is a result of broadened thinking and expanded exercises. Each individual endeavors to work more, in various headings to bring in more cash to appreciate current solaces. Subsequently, harmony is consistently out of his framework. Harmony and peacefulness are inbuilt in Agritourism as it is away from metropolitan territories and near nature.

Interest in regular habitat-Busy metropolitan populace is inclining towards nature. Since, regular habitat is in every case away from occupied life. Birds, creatures, crops, mountains, water bodies, towns give very surprising climate to metropolitan populace in which they can fail to remember their bustling metropolitan life.

Agrotourism presents an exceptional chance to consolidate parts of the travel industry and agribusiness enterprises to give various monetary, instructive, and social advantages to vacationers, makers, and networks. Agritourism offers makers a chance to produce extra pay and a road for direct promoting to shoppers. It upgrades the travel industry by expanding the volume of guests to a territory and the length of their visit. Agritourism likewise furnishes networks with the possibility to build their nearby duty bases and new work openings. Also, agritourism gives instructive freedoms to the general population, assists with saving farming terrains, and permits states to create business undertakings. While agritourism may make new potential income streams, it likewise presents new lawful issues for ranchers and landowners.
