

World Congress on Preventive Oncology – Award 2020 Announcement

Ibrahim

Allied Academies declares awards under several categories to inspire the attendees for their outstanding contributions to the scientific community and for the improvement in the field of Cancer Prevention, through the Preventive Oncology 2020. The Awarding will be taking place in the World Congress on Preventive Oncology on October 01, 2020 after all the sessions are completed and in Edinburgh, Scotland.

Best Keynote Speaker Award

The Best Keynote Speaker Award of Preventive Oncology 2020 will be given to that speaker, who outstretches beyond expectation, both through their research work and their key message, through their potential talk at the Conference. A Best Speaker will be the one who engages the audience through his content, presentation style and humour. Such a speaker, who can lure the audience and enthrall them all through his talk will be awarded the Best Keynote Speaker award.

Session s Best Presentation Award

The series will include many sessions under the different highlights/tracks of the conference including a vast array of topics. The criteria include quality of research, research methodologies, clarity, results, proofs, and presentation skills which would include the effective presentation, professional and impactful message delivery and engaging and answering skills of the speaker. The Chairs of sessions decide which presentation will receive the Best Presentation Award.

Best Presentation Award

The award committee shall choose one presentation as the best of all the presentations, from all the sessions with suggestion from the chair and co-chairs of the sessions, organizing committee members and the attendees, which will be awarded the Best Presentation Award.

Best Student Presentation Award

The Student Award will be awarded to members belonging to the category of UGs, PGs, and PhD students who participate through oral presentation. AAC believe that these little encouragements would nurture the young researchers to come out with flying colours. Based on the assessment of the

presentation, the conference chair decides the presentation which will be awarded with the Best Student Award.

Best Poster Presentation Award

Allied Academies organizes student poster competition through Preventive Oncology 2020 to encourage students and recent graduates to present their original research work. The presented research paper can be later published in conference supporting journals. Allied Academies hope to provide an opportunity for young researchers, and researchers at their early stages of work, to present their real time work through poster presentations. Best Poster Presentation Award shall be evaluated by a poster judge, based on the quality of poster, self-explanatory stature, quality of research work and other such criteria.

Best Exhibitor Award

The Best Exhibitor Award is awarded to those whose products shall be clearly shown, an identifiable exhibitor (name tags / brand tags worn) at the exhibit all the times, attractiveness of the product display. Crowd appeal, customer greetings, and valid explanations, use of allotted area and customer conversion will all be evaluated.

To win the Best Exhibitor Award, one must excel in all the above mentioned criterion, rise above competitors and clearly reflect marvel in product related to women health.

Best Video Presentation Award

The Preventive Oncology Conference hosts a video presentation session to support those participants who are not able to physically attend the conference, but who would like to present their work to an international community. Rules of Video Presentation with the guidelines is available on the website.

Allied Academies believes that it must appreciate this additional effort of speakers, who try beyond their limits to participate and be part of this esteemed event and hence one among them is awarded with the Best Video Presentation Award to honour the extra efforts, while others are awarded with certificates.
