Guidelines for Young Researchers Forum

Benefits

[Young Scientist Award](#) acceptance certification and memento to the champs

Our [conferences](#) present the best Platform for your study by oral presentations.

Learn about professional development with all the most advanced technologies by networking.

Young Scientists will get proper and timely knowledge by this Forum.

Platform for collaboration amongst young researchers for better development

Provide an opportunity for research intercommunication and established senior investigators across the globe in the field.

Share the thoughts with both renowned researchers and mentors.

It’s a great opportunity for young researchers to learn about the research areas for expanding their research knowledge.

Eligibility

Young Investigators, Post-Graduate students, Post-doctoral scholars, Trainees, junior staff with a minimum of 5 years of

research practice

The presentation must be into scientific sessions of the conference.

Each Young Researcher / Young Investigator can present only one document (as first author or co-author).

Age limit-Under 35yrs

All submissions must be in English.

Criteria for Selection

Showcase your research through oral presentations.

Learn about professional development and the latest investigation tools and technologies in your field.

This forum will give appropriate and up-to-date information to those who conduct research and those who use and benefit from research.

Develop grounds for collaboration among young researchers.

The forum will provide an opportunity for collegial intercommunication with other young researchers and established senior investigators across the globe.

Interact and share ideas with both companions and mentors.

Opportunity for young researchers to learn about the research areas of their peers to improve their capacity as multidisciplinary researchers

Actively circulate information and avail the benefits of education and career matters.

Awards & Rewards

Showcase your study through oral presentations.

Learn about career advancement and the latest research instruments and technologies in your field.

This forum will give appropriate and timely information to those who conduct research and those who use and benefit from research.

Develop a foundation for collaboration among young researchers.

The forum will provide an opportunity for collegial interaction with other young researchers and established senior researchers globally.

Communicate and share ideas among both peers and instructors.

Chance for young researchers to discover the research fields of their peers to build their capacity as multidisciplinary researchers

Actively share information and support the advantages of education and career matters.
