### **Recommendation Letter**

Over the years many scientists, medical folks, teachers, students and individuals of all categories have accessed the pub med to get to open access journals for data that are very educative and informative. On this account I strongly recommend the Journal of Vaccines & Vaccination to be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing. Indexing the journal with the PMC would be mutually beneficial to several authors, students and the general public worldwide.

Thanks you so much.letter

Yours sincerely,

**Patrick Eberechi Akpaka MBBS, DM**

*Senior lecturer & Consultant in Microbiology*
