January 11, 2013

Dear Sir/Madam,

I am Yunfeng Zhao, Associate Professor at LSU Health Sciences Center in Shreveport. I have been working in the field of carcinogenesis for over fourteen years. Reading the progress in carcinogenesis is a part of my daily research activities and PubMed Central is the primary source for the majority of us.

Recently, I have found a few interesting and important studies published in Journal of Carcinogenesis & Mutagenesis via another searching tool (Google Scholar), which cannot be found at PubMed Central. Therefore, I strongly recommend Journal of Carcinogenesis & Mutagenesis to be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

I look forward to your consideration.

Sincerely,

Yunfeng
